

Project Demo Planning

Date	12 July 2026
Team ID	
Project Name	Emotion Detection & Learning Support Engine
Maximum Marks	1 Mark

Project Demo Planning:

A well-structured demo plan ensures that the team presents the project effectively, covering all key aspects in a clear and organized manner.

S.No	Demo Section	Description	Duration (mins)	Responsible Member
1	Introduction & Problem Statement	Explain why emotion-aware learning support matters for students and TAs	2	Venkata sivs
2	Solution Overview	Walk through the architecture: BiLSTM + BERT detection, Gemini-based response, logging, dashboard	3	Venkata siva
3	Live Feature Demonstration	Type sample stuck-on messages live and show detected emotion + guidance for each of the 5 emotions	6	Venkata siva
4	Analytics Dashboard Walkthrough	Show live emotion distribution and BiLSTM vs. BERT confidence charts updating	3	Lakshmi sri vyshnavi
5	Known Limitations & Roadmap	Briefly note the current mock-based Gemini path and planned fixes	2	Sameer shaik
6	Q&A Session	Open floor for questions	4	All three members

Demo Flow Summary:

Step	Activity	Notes
1	Introduction & Problem Statement	Frame around students struggling silently and TAs manually triaging emotion from text
2	Solution Overview	Emphasize dual-model cross-checking and the modular architecture
3	Live Feature Demonstration	Prepare 5 sample inputs in advance, one per emotion category
4	Q&A Session	Anticipate questions about the mock vs. real Gemini integration
